8 LONG-TERM RENEWAL CONTRACT BETWEEN THE UNITED STATES  
9 AND  
10 SHASTA COUNTY WATER AGENCY  
11 PROVIDING FOR PROJECT WATER SERVICE  
12 FROM THE SACRAMENTO RIVER, SHASTA, AND TRINITY RIVER DIVISIONS

13 THIS CONTRACT, made this \_\_\_\_ day of \_\_\_\_\_, 2004, in  
14 pursuance generally of the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or  
15 supplementary thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as  
16 amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, July 2,  
17 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1263), October 27, 1986  
18 (100 Stat. 3050), as amended, and Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all  
19 collectively hereinafter referred to as Federal Reclamation law, between THE UNITED STATES  
20 OF AMERICA, hereinafter referred to as the United States, and SHASTA COUNTY WATER  
21 AGENCY, hereinafter referred to as the Agency or Contractor, a political subdivision of the State of  
22 California, duly organized, existing, and acting pursuant to the laws thereof, with its principal place  
23 of business in California;  
24 WITNESSETH, That:

EXPLANATORY RECITALS

[1<sup>st</sup>] WHEREAS, the United States has constructed and is operating the Central Valley Project, California, for diversion, storage, carriage, distribution and beneficial use, for flood control, irrigation, municipal, domestic, industrial, fish and wildlife mitigation, protection and restoration, generation and distribution of electric energy, salinity control, navigation and other beneficial uses, of waters of the Sacramento River, the American River, the Trinity River, and the San Joaquin River and their tributaries; and

[2<sup>nd</sup>] WHEREAS, the United States constructed Shasta Dam and Reservoir, Keswick Dam and Reservoir, and Whiskeytown Dam and Reservoir, hereinafter collectively referred to as the Project facilities, which will be used in part for the furnishing of water to the Agency pursuant to the terms of this Contract; and

[3<sup>rd</sup>] WHEREAS, the rights to Project Water were acquired by the United States pursuant to California law for operation of the Project; and

[4<sup>th</sup>] WHEREAS, the Agency and the United States entered into Contract No. 14-06-200-3367A, as amended, hereinafter referred to as the Existing Contract, which established terms for the delivery to the Agency of up to 5,000 acre-feet per year of Central Valley Project Water from the Project facilities from June 30, 1967 through December 31, 2004, hereinafter referred to as the Existing Contract; and

[5<sup>th</sup>] WHEREAS, the United States and the Agency have, pursuant to subsection 3404(c)(3) of the Central Valley Project Improvement Act (CVPIA), subsequently entered into a Binding Agreement identified as Binding Agreement No. 14-06-200-3367-BA; and

[5.1] WHEREAS, the Agency and Centerville Community Services District entered into a partial assignment on April 11, 2001, identified as Contract No. 14-06-200-3367X, to permanently assign to Centerville Community Services District 2,900 acre-feet of the Central Valley Project Water made available to the Contractor pursuant to the Existing Contract; and

50           [6<sup>th</sup>]   WHEREAS, Section 3404(c) of the CVPIA provides for long-term renewal of  
51 interim and existing long-term Central Valley Project Water service contracts following completion  
52 of appropriate environmental documentation, including a programmatic environmental impact  
53 statement (PEIS) pursuant to the National Environmental Policy Act analyzing the direct and  
54 indirect impacts and benefits of implementing the CVPIA and the potential renewal of all existing  
55 contracts for Project Water; and

56           [7<sup>th</sup>]   WHEREAS, the United States has completed the PEIS and all other appropriate  
57 environmental review necessary to provide for long-term renewal of the Existing Contract; and

58           [8<sup>th</sup>]   WHEREAS, the Agency has requested the long-term renewal of the Existing  
59 Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and the laws of  
60 the State of California, for water service from the Central Valley Project; and

61           [9<sup>th</sup>]   WHEREAS, the United States has determined that the Agency has fulfilled all of its  
62 obligations under the Existing Contract; and

63           [10<sup>th</sup>] WHEREAS, the Agency has demonstrated to the satisfaction of the Contracting  
64 Officer that the Agency has utilized the Central Valley Project Water supplies available to it for  
65 reasonable and beneficial use and, based upon a needs analysis cooperatively prepared by the  
66 Contracting Officer and the Agency, has demonstrated projected future demand for water use that  
67 exceeds the Contract Total to be made available to it pursuant to this Contract; and

68           [11<sup>th</sup>] WHEREAS, water obtained from the Central Valley Project has been relied upon by  
69 urban and agricultural areas within California for more than 50 years, and is considered by the  
70 Agency as an essential portion of its water supply; and

71           [12<sup>th</sup>] WHEREAS, the economies of regions within the Central Valley Project, including  
72 the Agency's, depend upon the continued availability of water, including water service from the  
73 Central Valley Project; and

[12.1] WHEREAS, the Agency has made and will continue to make substantial capital investments in diversion and treatment facilities, and requires a consistent, predictable quality of raw water in order to meet Safe Drinking Water Act requirements for its municipal customers, and to provide a consistent and predictable quality of water for its industrial customers; and

[13<sup>th</sup>] WHEREAS, the Secretary intends through coordination, cooperation, and partnerships to pursue measures to improve water supply, water quality, and reliability of the Project for all Project purposes; and

[13.1] WHEREAS, the Agency is located in the region of the Redding Groundwater Basin, and it is the desire of both the United States and the Agency to facilitate the cooperative efforts of local water service agencies to develop the Redding Groundwater Basin for conjunctive management and use with Project Water supplies, to maximize the reasonable beneficial use of water for the water service agencies and their customers in the region; and

[14<sup>th</sup>] WHEREAS, the mutual goals of the United States and the Agency include: to provide for reliable Central Valley Project Water supplies; to control costs of those supplies; to achieve repayment of the Central Valley Project as required by law; to guard reasonably against Central Valley Project Water shortages; to achieve a reasonable balance among competing demands for use of Central Valley Project Water; and to comply with all applicable environmental statutes, all consistent with the legal obligations of the United States relative to the Central Valley Project; and

[15<sup>th</sup>] WHEREAS, the parties intend by this Contract to develop a more cooperative relationship in order to achieve their mutual goals; and

[16<sup>th</sup>] WHEREAS, the United States and the Agency are willing to enter into this Contract pursuant to Federal Reclamation law on the terms and conditions set forth below;

NOW, THEREFORE, in consideration of the mutual and dependent covenants herein contained, it is hereby mutually agreed by the parties hereto as follows:

99 DEFINITIONS

100 1. When used herein unless otherwise distinctly expressed, or manifestly incompatible  
101 with the intent of the parties as expressed in this Contract, the term:

102 (a) "Calendar Year" shall mean the period January 1 through December 31, both  
103 dates inclusive;

104 (b) "Charges" shall mean the payments required by Federal Reclamation law in  
105 addition to the Rates and Tiered Pricing Components specified in this Contract as determined  
106 annually by the Contracting Officer pursuant to this Contract;

107 (c) "Condition of Shortage" shall mean a condition respecting the Project during  
108 any Year such that the Contracting Officer is unable to deliver sufficient water to meet the Contract  
109 Total;

110 (d) "Contracting Officer" shall mean the Secretary of the Interior's duly  
111 authorized representative acting pursuant to this Contract or applicable Reclamation law or  
112 regulation;

113 (e) "Contract Total" shall mean the maximum amount of water to which the  
114 Agency is entitled under subdivision (a) of Article 3 of this Contract;

115 (f) "Agency's Service Area" shall mean the area to which the Agency is  
116 permitted to provide Project Water under this Contract as described in Exhibit "A" attached  
117 hereto, which may be modified from time to time in accordance with Article 35 of this Contract  
118 without amendment of this Contract;

119 (g) "CVPIA" shall mean the Central Valley Project Improvement Act, Title  
120 XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

121 (h) "Eligible Lands" shall mean all lands to which Irrigation Water may be  
122 delivered in accordance with Section 204 of the Reclamation Reform Act of October 12, 1982 (96  
123 Stat. 1263), as amended, hereinafter referred to as RRA;

(i) “Excess Lands” shall mean all lands in excess of the limitations contained in Section 204 of the RRA, other than those lands exempt from acreage limitation under Federal Reclamation law;

(j) “Full Cost Rate” shall mean an annual rate, determined by the Contracting Officer that amortizes the expenditures for construction properly allocable to the Project Irrigation or M&I functions, as appropriate, of facilities in service including operation and maintenance deficits funded, less payments, over such periods as may be required under Federal Reclamation law, or applicable contract provisions. Interest will accrue on both the construction expenditures and funded O&M deficits from October 12, 1982, on costs outstanding at that date, or from the date incurred in the case of costs arising subsequent to October 12, 1982, and shall be calculated in accordance with subsections 202(3)(B) and (3)(C) of the RRA. The Full Cost Rate includes actual operation, maintenance, and replacement costs consistent with Section 426.2 of the Rules and Regulations for the RRA;

(k) “Ineligible Lands” shall mean all lands to which Irrigation Water may not be delivered in accordance with Section 204 of the RRA;

(l) “Irrigation Full Cost Water Rate” shall mean the Full Cost Rate applicable to the delivery of Irrigation Water;

(m) “Irrigation Water” shall mean ~~water~~ Replaced Water made available from the Project that is used primarily in the production of agricultural crops or livestock, including domestic use incidental thereto, and watering of livestock;

(n) “Landholder” shall mean a party that directly or indirectly owns or leases nonexempt land, as provided in 43 CFR 426.2;

(o) “Municipal and Industrial (M&I) Water” shall mean Project Water, other than Irrigation Water, made available to the Contractor. M&I Water shall include water used for human use and purposes such as the watering of landscaping or pasture for animals (e.g., horses)

which are kept for personal enjoyment or water delivered to land holdings operated in units of less than 5 acres unless the Contractor establishes to the satisfaction of the Contracting Officer that the use of water delivered to any such landholding is a use described in subdivision (m) of this Article;

(p) "M&I Full Cost Water Rate" shall mean the Full Cost Rate applicable to the delivery of M&I Water;

(q) "Operation and Maintenance" or "O&M" shall mean normal and reasonable care, control, operation, repair, replacement (other than Capital replacement), and maintenance of Project facilities;

(r) ~~Omitted; "Operating Non-Federal Entity" shall mean the \_\_\_\_\_, a Non-Federal entity which has the obligation to operate and maintain all or a portion of the \_\_\_\_\_ [Division/Unit] facilities pursuant to an agreement with the United States, and which may have funding obligations with respect thereto;~~

(s) "Project" shall mean the Central Valley Project owned by the United States and managed by the Department of the Interior, Bureau of Reclamation;

(t) "Project Contractors" shall mean all parties who have water service contracts for Project Water from the Project with the United States pursuant to Federal Reclamation law;

(u) "Project Water" shall mean all water that is developed, diverted, stored, or delivered by the Secretary, including water that is made available from Project Reservoirs for direct diversion by the Agency, in accordance with the statutes authorizing the Project and in accordance with the terms and conditions of water rights acquired pursuant to California law;

(v) "Rates" shall mean the payments determined annually by the Contracting Officer in accordance with the then current applicable water ratesetting policies for the Project, as described in subdivision (a) of Article 7 of this Contract;

(w) "Recent Historic Average" shall mean the most recent 5-year average of the final forecast of Water Made Available to the Agency pursuant to this Contract or its preceding contract(s);

(x) "Secretary" shall mean the Secretary of the Interior, a duly appointed successor, or an authorized representative acting pursuant to any authority of the Secretary and through any agency of the Department of the Interior;

(y) "Tiered Pricing Component" shall be the incremental amount to be paid for each acre-foot of Water Delivered as described in subdivision (j) of Article 7 of this Contract;

(z) "Water Delivered" or "Delivered Water" shall mean Project Water or Replaced Water diverted for use by the Agency at the point(s) of delivery approved by the Contracting Officer;

(aa) "Water Made Available" shall mean the estimated amount of Project Water and Replaced Water that can be delivered to the Agency for the upcoming Year as declared by the Contracting Officer, pursuant to subdivision (a) of Article 4 of this Contract;

(bb) "Water Scheduled" shall mean Project Water and Replaced Water made available to the Agency for which times and quantities for delivery have been established by the Agency and Contracting Officer, pursuant to subdivision (b) of Article 4 of this Contract; and

(cc) "Year" shall mean the period from and including March 1 of each Calendar Year through the last day of February of the following Calendar Year; and

(dd) "Project Reservoirs" shall mean Shasta Reservoir, Keswick Reservoir, and Whiskeytown Reservoir; and

(ee) "Replaced Water" shall mean water diverted from the Sacramento River or a tributary stream located in Shasta County ~~a Source of Supply~~ at a time when the Agency or its Subcontractors would not otherwise be entitled to make such diversion; and

(ff) “Subcontractor or Subcontractors” shall mean an individual, group of individuals, or legal entities who contract with the Agency to divert and use water made available to the Agency under this Contract; and

(gg) —“Source of Supply” shall mean the Sacramento River or a tributary stream located in Shasta County; and

#### TERM OF CONTRACT

2. (a) This Contract shall be effective March 1, 2004, through February 28, 2029. In the event the Agency wishes to renew the Contract beyond February 28, 2029, the Agency shall submit a request for renewal in writing to the Contracting Officer no later than 2 years prior to the date this Contract expires. The renewal of this Contract insofar as it pertains to the furnishing of Irrigation Water to the Agency shall be governed by subdivision (b) of this Article, and the renewal of this Contract insofar as it pertains to the furnishing of M&I Water to the Agency shall be governed by subdivision (c) of this Article.

(b) (1) On terms and conditions of a renewal contract that are mutually agreeable to the parties hereto, and upon a determination by the Contracting Officer that at the time of contract renewal the conditions set forth in subdivision (b)(2) of this Article are met, and subject to Federal and State law, this Contract, insofar as it pertains to the furnishing of Irrigation Water to the Agency, shall be renewed for a period of 25 years.

(2) The conditions which must be met for this Contract to be renewed are: (i) the Agency has prepared a water conservation plan that has been determined by the Contracting Officer in accordance with Article 26 of this Contract to meet the conservation and efficiency criteria for evaluating such plans established under Federal law; (ii) the Agency is implementing an effective water conservation and efficiency program based on the Agency’s water conservation plan as required by Article 26 of this Contract; (iii) the Agency is maintaining all water measuring devices and implementing all water measurement methods as approved by the

Contracting Officer pursuant to Article 6 of this Contract; (iv) the Agency has reasonably and beneficially used the Project Water supplies made available to it and, based on projected demands, is reasonably anticipated and expects fully to utilize for reasonable and beneficial use the quantity of Project Water to be made available to it pursuant to such renewal; (v) the Agency is complying with all terms and conditions of this Contract; and (vi) the Agency has the physical and legal ability to deliver Project Water.

(3) The terms and conditions of the renewal contract described in subdivision (b)(1) of this Article and any subsequent renewal contracts shall be developed consistent with the parties' respective legal rights and obligations, and in consideration of all relevant facts and circumstances, as those circumstances exist at the time of renewal, including, without limitation, the Agency's need for continued delivery of Project Water; environmental conditions affected by implementation of the Contract to be renewed, and specifically changes in those conditions that occurred during the life of the Contract to be renewed; the Secretary's progress toward achieving the purposes of the CVPIA as set out in Section 3402 and in implementing the specific provisions of the CVPIA; and current and anticipated economic circumstances of the region served by the Agency.

(c) This Contract, insofar as it pertains to the furnishing of M&I Water to the Agency, shall be renewed for a period of 25 years and thereafter shall be renewed for successive periods of up to 40 years each, which periods shall be consistent with the then-existing Reclamation-wide policy, under terms and conditions mutually agreeable to the parties and consistent with federal and state law. The Agency shall be afforded the opportunity to comment to the Contracting Officer on the proposed adoption and application of any revised Reclamation-wide policy applicable to the delivery of Project M&I Water that would limit the term of any subsequent renewal contract with the Agency for the furnishing of M&I Water to less than 25 years.

(d) The Contracting Officer shall make a determination 10 years after the date of execution of this Contract, and every 5 years thereafter during the term of this Contract, of whether a conversion to a contract under said subsection 9(d) can be accomplished pursuant to the Act of July 2, 1956 (Public Law 643). Notwithstanding any provision of this Contract, the Agency reserves and shall have all rights and benefits under Public Law 643. The Contracting Officer anticipates that during the term of this contract, all authorized Project construction expected to occur will have occurred, and on that basis the Contracting Officer agrees upon such completion to allocate all costs that are properly assignable to the Agency, and agrees further that, at any time after such allocation is made, and subject to satisfaction of the condition set out in this subdivision, this Contract shall, at the request of the Agency, be converted to a contract under subsection (d), Section 9 of the Reclamation Project Act of 1939, subject to applicable Federal law and under stated terms and conditions mutually agreeable to the Agency and the Contracting Officer. A condition for such conversion to occur shall be a determination by the Contracting Officer that, account being taken of the amount credited to return by the Agency as provided for under Reclamation law, the remaining amount of construction costs assignable for ultimate return by the Agency can probably be repaid to the United States within the term of a contract under said subsection (d). If the remaining amount of costs that are properly assignable to the Agency cannot be determined during the term of this Contract, the Contracting Officer shall notify the Agency, and provide the reason(s) why such a determination could not be made. Further, the Contracting Officer shall make such a determination as soon thereafter as possible so as to permit, upon request of the Agency and satisfaction of the condition set out above, conversion to a contract under said subsection (d). In the event such determination of costs has not been made at a time which allows conversion of this Contract during the term of this Contract or the Agency has not requested conversion of this Contract within such term, the parties shall incorporate in any subsequent renewal contract as

described in subdivision (b) of this Article a provision that carries forth in substantially identical terms the provisions of this subdivision.

WATER TO BE MADE AVAILABLE AND DELIVERED TO THE AGENCY

3. (a) During each Year, consistent with all applicable State water rights, permits, and licenses, Federal law, and subject to the provisions set forth in Articles 11 and 12 of this Contract, the Contracting Officer shall make available for delivery to the Agency 2,100 acre-feet of water for irrigation and M&I purposes. Provided, that the United States shall not be responsible for the maintenance of water levels in Project Reservoirs in order to permit the Agency and its Subcontractors to withdraw water therefrom. The quantity of Water Delivered to the Agency in accordance with this subdivision shall be scheduled and paid for pursuant to the provisions of Articles 4 and 7 of this Contract: Provided, that Project Water made available from Project Reservoirs for direct diversion by the Agency and its Subcontractors shall be used for M&I purposes only; Provided, further, that Replaced Water may be taken by the Agency and its Subcontractors for irrigation and/or M&I purposes from the existing flow in the Sacramento River or a tributary stream located in Shasta County pursuant to the terms hereof. If the Agency or its Subcontractors desire to divert water during a period when not otherwise entitled to do so under a water right permit or license, the Agency or its Subcontractors may do so without objection by the United States contingent upon the Agency's making appropriate payment to the United States in the manner set forth in Article 7 hereof. To the extent necessary to satisfy third parties below Project Reservoirs having a valid claim, the United States will replace from such Project Reservoirs all water taken by the Agency and its Subcontractors to the extent of water available for such replacement, as conclusively determined by the Contracting Officer. If the United States determines that there is no water available for such replacement during any period of time, it shall notify the Agency in advance of the period of such unavailability. For the purposes of this Contract, Replaced Water shall be considered to be all such water taken each Year during the period from

June 15 through September 30, and for the purpose of payment such water shall be deemed to have been furnished from the Project. The Agency shall determine the quantities of Replaced Water in accordance with the procedures established in Article 5 of this Contract.

(1) The United States assumes no responsibility and makes no representation with respect to the availability of water in the Sacramento River or a tributary stream located in Shasta County. Replaced Water may be taken if and when available; Provided, that the Agency and its Subcontractors shall hold the United States harmless if the diversion of Replaced Water impairs an existing water right which has a point of diversion upstream from Project storage facilities.

(b) Because the capacity of the Central Valley Project to deliver Project Water has been constrained in recent years and may be constrained in the future due to many factors including hydrologic conditions and implementation of Federal and State laws, the likelihood of the Agency actually receiving the amount of Water set out in subdivision (a) of this Article in any given Year is uncertain. The Contracting Officer's most recent modeling referenced in the PEIS projected that the Contract Total set forth in this Contract will not be available to the Agency in many years. During the most recent 5 years, the Recent Historic Average of water made available to the Agency was 1,932 acre-feet. Nothing in subdivision (b) of this Article shall affect the rights and obligations of the parties under any provision of this Contract.

(c) The Agency shall utilize the Project Water in accordance with all applicable legal requirements.

(d) The Agency shall make reasonable and beneficial use of all Project Water or other water furnished pursuant to this Contract. Ground-water recharge programs (direct, indirect, or in lieu), ground-water banking programs, surface water storage programs, and other similar programs utilizing Project Water or other water furnished pursuant to this Contract conducted within the Agency's Service Area which are consistent with applicable State law and result in use

consistent with Reclamation law will be allowed; Provided, that any direct recharge program(s) is (are) described in the Agency's Water Conservation Plan submitted pursuant to Article 26 of this Contract; Provided, further, that such Water Conservation Plan demonstrates sufficient lawful uses exist in the Agency's Service Area so that using a long-term average, the quantity of Delivered Water is demonstrated to be reasonable for such uses and in compliance with Reclamation Law. Ground-water recharge programs, ground-water banking programs, surface water storage programs, and other similar programs utilizing Project Water or other water furnished pursuant to this Contract conducted outside the Agency's Service Area may be permitted upon written approval of the Contracting Officer, which approval will be based upon environmental documentation, Project Water rights, and Project operational concerns. The Contracting Officer will address such concerns in regulations, policies, or guidelines.

(e) The Agency shall comply with requirements applicable to the Agency in biological opinion(s) prepared as a result of a consultation regarding the execution of this Contract undertaken pursuant to Section 7 of the Endangered Species Act of 1973, as amended, that are within the Agency's legal authority to implement. The Existing Contract, which evidences in excess of 36 years of diversions for irrigation and/or municipal and industrial purposes of the quantities of water provided in subdivision (a) of Article 3 of this Contract, will be considered in developing an appropriate baseline for the Biological Assessment prepared pursuant to the Endangered Species Act, and any other needed environmental review. Nothing herein shall be construed to prevent the Agency from challenging or seeking judicial relief in a court of competent jurisdiction with respect to any biological opinion or other environmental documentation referred to in this Article.

(f) As soon as possible following each declaration of Water Made Available under Article 4 of this Contract, the Contracting Officer will make a determination whether Project Water, or other water available to the Project, can be made available to the Agency in addition to

the Contract Total under Article 3 of this Contract during the Year without adversely impacting other Project Contractors. At the request of the Agency, the Contracting Officer will consult with the Agency prior to making such a determination. If the Contracting Officer determines that Project Water, or other water available to the Project, can be made available to the Agency, the Contracting Officer will announce the availability of such water and shall so notify the Agency as soon as practical. The Contracting Officer will thereafter meet with the Agency and other Project Contractors capable of taking such water to determine the most equitable and efficient allocation of such water. If the Agency requests the delivery of any quantity of such water, the Contracting Officer shall make such water available to the Agency in accordance with applicable statutes, regulations, guidelines, and policies.

(g) The Agency may request permission to reschedule for use during the subsequent Year some or all of the Water Made Available to the Agency during the current Year referred to as "carryover." The Agency may request permission to use during the current Year a quantity of Project Water which may be made available by the United States to the Agency during the subsequent Year referred to as "preuse." The Contracting Officer's written approval may permit such uses in accordance with applicable statutes, regulations, guidelines, and policies.

(h) The Agency's right pursuant to Federal Reclamation law and applicable State law to the reasonable and beneficial use of Water Delivered pursuant to this Contract during the term thereof and any subsequent renewal contracts, as described in Article 2 of this Contract, during the terms thereof shall not be disturbed so long as the Agency shall fulfill all of its obligations under this Contract and any renewals thereof. Nothing in the preceding sentence shall affect the Contracting Officer's ability to impose shortages under Article 11 or subdivision (b) of Article 12 of this Contract or applicable provisions of any subsequent renewal contracts.

(i) Project Water furnished to the Agency pursuant to this Contract may be delivered for [REDACTED] other than irrigation or M&I purposes upon written approval by the Contracting Officer in accordance with the terms and conditions of such approval.

(j) The Contracting Officer shall make reasonable efforts to protect the water rights necessary for the Project and to provide the water available under this Contract. The Contracting Officer shall not object to participation by the Agency, in the capacity and to the extent permitted by law, in administrative proceedings related to the Project Water rights; Provided, however, That the Contracting Officer retains the right to object to the substance of the Agency's position in such a proceeding; Provided further, that in such proceedings the Contracting Officer shall recognize the Agency has a legal right under the terms of this Contract to use Project Water.

#### TIME FOR DELIVERY OF WATER

4. (a) On or about February 20 of each Calendar Year, the Contracting Officer shall announce the Contracting Officer's expected declaration of the Water Made Available. Such declaration will be expressed in terms of both Water Made Available and the Recent Historic Average and will be updated monthly, and more frequently if necessary, based on then-current operational and hydrologic conditions and a new declaration with changes, if any, to the Water Made Available will be made. The Contracting Officer shall provide forecasts of Project operations and the basis of the estimate, with relevant supporting information, upon the written request of the Agency. Concurrently with the declaration of the Water Made Available, the Contracting Officer shall provide the Agency with the updated Recent Historic Average.

(b) On or before each March 1 and at such other times as necessary, the Agency shall submit to the Contracting Officer a written schedule, satisfactory to the Contracting Officer, showing the monthly quantities of Project Water [REDACTED] and/or Replaced Water to be delivered by the United States to the Agency pursuant to this Contract for the Year commencing on such March 1.

The Contracting Officer shall use all reasonable means to deliver Project Water and/or Replaced Water according to the approved schedule for the Year commencing on such March 1.

(c) The Agency shall not schedule Project Water and/or Replaced Water in excess of the quantity of Project Water and/or Replaced Water the Agency intends to put to reasonable and beneficial use within the Agency's Service Area or to sell, transfer, or exchange pursuant to Article 9 of this Contract during any Year.

(d) Subject to the conditions set forth in subdivision (a) of Article 3 of this Contract, the United States shall deliver Project Water and/or Replaced Water to the Agency in accordance with the initial schedule submitted by the Agency pursuant to subdivision (b) of this Article, or any written revision(s), satisfactory to the Contracting Officer, thereto submitted within a reasonable time prior to the date(s) on which the requested change(s) is/are to be implemented.

POINT OF DIVERSION AND RESPONSIBILITY FOR DISTRIBUTION OF WATER

5. (a) Project Water and/or Replaced Water scheduled pursuant to subdivision (b) of Article 4 of this Contract shall be delivered to the Agency at points of delivery either on Project facilities or another location or locations mutually agreed to in writing by the Contracting Officer and the Agency.

(b) ~~Omitted. The Contracting Officer, the Operating Non-Federal Entity, or other appropriate entity shall make all reasonable efforts to maintain sufficient flows and levels of water in the Project Reservoirs to deliver Project Water to the Agency at specific turnouts established pursuant to subdivision (a) of this Article.~~

(c) The Contractor shall deliver Irrigation Water in accordance with any applicable land classification provisions of Federal Reclamation law and the associated regulations. The Contractor shall not deliver Project Water to land outside the Contractor's Service Area unless approved in advance by the Contracting Officer.

(d) All Water Delivered to the Agency pursuant to this Contract shall be measured and recorded with equipment furnished, installed, operated, and maintained by the ~~United States, the Operating Non-Federal Entity or other appropriate entity as designated by the Contracting Officer (hereafter "other appropriate entity")~~ **Agency** at the point or points of delivery established pursuant to subdivision (a) of this Article. Upon the request of either party to this Contract, the Contracting Officer shall investigate, ~~or cause to be investigated by the responsible Operating Non-Federal Entity,~~ the accuracy of such measurements and shall take any necessary steps to adjust any errors appearing therein. For any period of time when accurate measurements have not been made, the Contracting Officer shall consult with the Agency ~~and the responsible Operating Non-Federal Entity~~ prior to making a final determination of the quantity delivered for that period of time.

(e) (1) The construction, operation, and maintenance of all pumps, pipelines, storage tanks, distribution lines, and other facilities, hereinafter referred to as the facilities, required to take, measure, convey, and distribute water and the expense thereof shall be the responsibility of the Agency. The facilities may be installed, operated, and maintained on or across property of the United States in the area of the turnout(s) described in subdivision (a) of this Article subject to such restrictions and regulations as to type, location, method of installation, and operation and maintenance as may be promulgated by the Contracting Officer.

(e) (2) ~~Neither The Contracting Officer nor any Operating Non-Federal Entity~~ shall ~~not~~ be responsible for the control, carriage, handling, use, disposal, or distribution of Project Water Delivered to the Agency pursuant to this Contract beyond the delivery points specified in subdivision (a) of this Article. The Agency shall indemnify the United States, its officers, employees, agents, and assigns on account of damage or claim of damage of any nature whatsoever for which there is legal responsibility, including property damage, personal injury, or death arising out of or connected with the control, carriage, handling, use, disposal, or distribution

of such Project Water ~~or Replaced Water~~ beyond such delivery points, except for any damage or claim arising out of (i) acts or omissions of the Contracting Officer or any of its officers, employees, agents, or assigns, ~~including any responsible Operating Non-Federal Entity~~, with the intent of creating the situation resulting in any damage or claim, (ii) willful misconduct of the Contracting Officer or any of its officers, employees, agents, or assigns, ~~including any responsible Operating Non-Federal Entity~~, (iii) negligence of the Contracting Officer or any of its officers, employees, agents, or assigns ~~including any responsible Operating Non-Federal Entity~~, or (iv) damage or claims resulting from a malfunction of facilities owned and/or operated by the United States ~~or responsible Operating Non-Federal Entity~~; Provided, that the Agency is not the ~~Operating Non-Federal Entity~~ ~~entity~~ that owned or operated the malfunctioning facility(ies) from which the damage claim arose.

MEASUREMENT OF WATER WITHIN THE SERVICE AREA

6. (a) By \_\_\_\_\_[DATE] \_\_\_\_\_, the Agency shall ensure that, unless the Agency establishes an alternative measurement program satisfactory to the Contracting Officer, all surface water delivered for irrigation purposes within the Agency's Service Area is measured at each agricultural turnout and such water delivered for municipal and industrial purposes is measured at each municipal and industrial service connection. The water measuring devices or water measuring methods of comparable effectiveness must be acceptable to the Contracting Officer. The Agency shall be responsible for installing, operating, and maintaining and repairing all such measuring devices and implementing all such water measuring methods at no cost to the United States. The Agency shall use the information obtained from such water measuring devices or water measuring methods to ensure its proper management of the water, to bill water users for water delivered by the Agency; and, if applicable, to record water delivered for municipal and industrial purposes by customer class as defined in the Agency's water conservation plan provided for in Article 26 of this Contract. Nothing herein contained, however, shall preclude the Agency from establishing and collecting any charges, assessments, or other revenues authorized by

California law. The Agency shall include a summary of all its annual surface water deliveries in the annual report described in subdivision (c) of Article 26.

(b) To the extent the information has not otherwise been provided, upon execution of this Contract, the Agency shall provide to the Contracting Officer a written report describing the measurement devices or water measuring methods being used or to be used to implement subdivision (a) of this Article and identifying the agricultural turnouts and the municipal and industrial service connections or alternative measurement programs approved by the Contracting Officer, at which such measurement devices or water measuring methods are being used, and, if applicable, identifying the locations at which such devices and/or methods are not yet being used including a time schedule for implementation at such locations. The Contracting Officer shall advise the Agency in writing within 60 days as to the adequacy of, and necessary modifications, if any, of the measuring devices or water measuring methods identified in the Agency's report and if the Contracting Officer does not respond in such time, they shall be deemed adequate. If the Contracting Officer notifies the Agency that the measuring devices or methods are inadequate, the parties shall within 60 days following the Contracting Officer's response, negotiate in good faith the earliest practicable date by which the Agency shall modify said measuring devices and/or measuring methods as required by the Contracting Officer to ensure compliance with subdivision (a) of this Article.

(c) All new surface water delivery systems installed within the Agency's Service Area after the effective date of this Contract shall also comply with the measurement provisions described in subdivision (a) of this Article.

(d) The Agency shall inform the Contracting Officer and the State of California in writing by April 30 of each Year of the monthly volume of surface water delivered within the Agency's Service Area during the previous Year.

(e) The Agency shall inform the Contracting Officer ~~and the Operating Non-Federal Entity~~ on or before the 20<sup>th</sup> calendar day of each month of the quantity of Irrigation and M&I Water taken during the preceding month.

RATES AND METHOD OF PAYMENT FOR WATER

7. (a) The Agency shall pay the United States as provided in this Article for all Delivered Water at Rates, Charges, and the Tiered Pricing Component established in accordance with (i) the Secretary's ratesetting policy for Irrigation Water adopted in 1988 and the Secretary's then-existing ratesetting policy for M&I Water. Such ratesetting policies shall be amended, modified, or superseded only through a public notice and comment procedure; (ii) applicable Reclamation law and associated rules and regulations, or policies; and (iii) other applicable provisions of this Contract. Payments shall be made by cash transaction, wire, or any other mechanism as may be agreed to in writing by the Agency and the Contracting Officer. The Rates, Charges, and Tiered Pricing Components applicable to the Agency upon execution of this Contract are set forth in Exhibit "B," as may be revised annually.

(b) The Contracting Officer shall notify the Agency of the Rates, Charges, and Tiered Pricing Components as follows:

(1) Prior to July 1 of each Calendar Year, the Contracting Officer shall provide the Agency an estimate of the Charges for Project Water that will be applied to the period October 1, of the current Calendar Year, through September 30, of the following Calendar Year, and the basis for such estimate. The Agency shall be allowed not less than 2 months to review and comment on such estimates. On or before September 15 of each Calendar Year, the Contracting Officer shall notify the Agency in writing of the Charges to be in effect during the period October 1 of the current Calendar Year, through September 30, of the following Calendar Year, and such notification shall revise Exhibit "B."

(2) Prior to October 1 of each Calendar Year, the Contracting Officer shall make available to the Agency an estimate of the Rates and Tiered Pricing Components for Project Water for the following Year and the computations and cost allocations upon which those Rates are based. The Agency shall be allowed not less than 2 months to review and comment on such computations and cost allocations. By December 31 of each Calendar Year, the Contracting Officer shall provide the Agency with the final Rates and Tiered Pricing Components to be in effect for the upcoming Year, and such notification shall revise Exhibit "B."

(c) At the time the Agency submits the initial schedule for the delivery of Project Water and Replaced Water for each Year pursuant to subdivision (b) of Article 4 of this Contract, the Agency shall make an advance payment to the United States equal to the total amount payable pursuant to the applicable Rate(s) set under subdivision (a) of this Article, for the Project Water and Replaced Water scheduled to be delivered pursuant to this Contract during the first 2 calendar months of the Year. Before the end of the first month and before the end of each calendar month thereafter, the Agency shall make an advance payment to the United States, at the Rate(s) set under subdivision (a) of this Article, for the Water Scheduled to be delivered pursuant to this Contract during the second month immediately following. Adjustments between advance payments for Water Scheduled and payments at Rates due for Water Delivered shall be made before the end of the following month; Provided, that any revised schedule submitted by the Agency pursuant to Article 4 of this Contract which increases the amount of Water Delivered pursuant to this Contract during any month shall be accompanied with appropriate advance payment, at the Rates then in effect, to assure that Project Water or Replaced Water is not delivered to the Agency in advance of such payment. In any month in which the quantity of Water Delivered to the Agency pursuant to this Contract equals the quantity of Water Scheduled and paid for by the Agency, no additional Project Water or Replaced Water shall be delivered to the Agency unless and until an advance payment at the Rates then in effect for such additional Project Water or Replaced Water is made.

Final adjustment between the advance payments for the Water Scheduled and payments for the quantities of Water Delivered during each Year pursuant to this Contract shall be made as soon as practicable but no later than April 30th of the following Year, or 60 days after the delivery of Project Water carried over under subdivision (f) of Article 3 of this Contract if such water is not delivered by the last day of February.

(d) The Agency shall also make a payment in addition to the Rate(s) in subdivision (c) of this Article to the United States for Water Delivered, at the Charges and the appropriate Tiered Pricing Component then in effect, before the end of the month following the month of delivery; Provided, that the Agency may be granted an exception from the Tiered Pricing Component pursuant to subdivision (j)(2) of this Article. The payments shall be consistent with the quantities of Irrigation Water and M&I Water Delivered as shown in the water delivery report for the subject month prepared ~~by the Operating Non-Federal Entity or, if there is no Operating Non-Federal Entity,~~ by the Contracting Officer. The water delivery report shall be deemed a bill for the payment of Charges and the applicable Tiered Pricing Component for Water Delivered. Adjustment for overpayment or underpayment of Charges shall be made through the adjustment of payments due to the United States for Charges for the next month. Any amount to be paid for past due payment of Charges and the Tiered Pricing Component shall be computed pursuant to Article 20 of this Contract.

(e) The Agency shall pay for any Water Delivered under subdivision (d), (f), or (g) of Article 3 of this Contract as determined by the Contracting Officer pursuant to applicable statutes, associated regulations, any applicable provisions of guidelines or ratesetting policies; Provided, that the Rate for Water Delivered under subdivision (d) or (f) of Article 3 of this Contract shall be no more than the otherwise applicable Rate for Irrigation Water or M&I Water under subdivision (a) of this Article.

(f) Payments to be made by the Agency to the United States under this Contract may be paid from any revenues available to the Agency.

(g) All revenues received by the United States from the Agency relating to the delivery of Project Water or the delivery of non-project water through Project facilities shall be allocated and applied in accordance with Federal Reclamation law and the associated rules or regulations, and the then current Project ratesetting policies for M&I Water or Irrigation Water.

(h) The Contracting Officer shall keep its accounts pertaining to the administration of the financial terms and conditions of its long-term contracts, in accordance with applicable Federal standards, so as to reflect the application of Project costs and revenues. The Contracting Officer shall, each Year upon request of the Agency, provide to the Agency a detailed accounting of all Project and Agency expense allocations, the disposition of all Project and Agency revenues, and a summary of all water delivery information. The Contracting Officer and the Agency shall enter into good faith negotiations to resolve any discrepancies or disputes relating to accountings, reports, or information.

(i) The parties acknowledge and agree that the efficient administration of this Contract is their mutual goal. Recognizing that experience has demonstrated that mechanisms, policies, and procedures used for establishing Rates, Charges, and Tiered Pricing Components, and/or for making and allocating payments, other than those set forth in this Article may be in the mutual best interest of the parties, it is expressly agreed that the parties may enter into agreements to modify the mechanisms, policies, and procedures for any of those purposes while this Contract is in effect without amending this Contract.

(j) (1) Beginning at such time as deliveries of Project Water and Replaced Water in a Year exceed 80 percent of the Contract Total, then before the end of the month following the month of delivery the Agency shall make an additional payment to the United States equal to the applicable Tiered Pricing Component. The Tiered Pricing Component for the amount of Water

Delivered in excess of 80 percent of the Contract Total, but less than or equal to 90 percent of the Contract Total, shall equal one-half of the difference between the Rate established under subdivision (a) of this Article and the Irrigation Full Cost Water Rate or M&I Full Cost Water Rate, whichever is applicable. The Tiered Pricing Component for the amount of Water Delivered which exceeds 90 percent of the Contract Total shall equal the difference between (i) the Rate established under subdivision (a) of this Article and (ii) the Irrigation Full Cost Water Rate or M&I Full Cost Water Rate, whichever is applicable. For all Water Delivered pursuant to subdivision (a) of Article 3 of this Contract which is in excess of 80 percent of the Contract Total, this increment shall be deemed to be divided between Irrigation Water and M&I Water in the same proportion as actual deliveries of each bear to the cumulative total Water Delivered.

(2) Subject to the Contracting Officer's written approval, the Agency may request and receive an exemption from such Tiered Pricing Components for ~~Project~~ **Replaced** Water delivered to produce a crop which the Contracting Officer determines will provide significant and quantifiable habitat values for waterfowl in fields where the water is used and the crops are produced; Provided, that the exemption from the Tiered Pricing Components for Irrigation Water shall apply only if such habitat values can be assured consistent with the purposes of CVPIA through binding agreements executed with or approved by the Contracting Officer prior to use of such water.

(3) For purposes of determining the applicability of the Tiered Pricing Components pursuant to this Article, Water Delivered shall include Project Water that the Agency transfers to others but shall not include Project Water transferred and delivered to the Agency nor shall it include the additional water provided to the Agency under the provisions of subdivision (f) of Article 3 of this Contract.

(k) For the term of this Contract, Rates under the respective ratesetting policies will be established to recover only reimbursable "operation and maintenance" (including any

deficits) and capital costs of the Project, as those terms are used in the then-current Project ratesetting policies, and interest, where appropriate, except in instances where a minimum Rate is applicable in accordance with the relevant Project ratesetting policy. Changes of significance in practices which implement the Contracting Officer's ratesetting policies will not be implemented until the Contracting Officer has provided the Agency an opportunity to discuss the nature, need, and impact of the proposed change.

(l) Except as provided in subsections 3405(a)(1)(B) and 3405(f) of the CVPIA, the Rates for Project Water transferred by the Agency shall be the Agency's Rates adjusted upward or downward to reflect the changed costs, (if any), incurred by the Contracting Officer in the delivery of the transferred Project Water to the transferee's point of delivery in accordance with the then applicable CVP Ratesetting Policy. If the Agency is receiving lower Rates and Charges because of inability to pay and is transferring Project Water to another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and Charges for transferred Project Water shall be the Agency's Rates and Charges unadjusted for inability to pay.

(m) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting Officer is authorized to adjust determinations of ability to pay every 5 years.

#### NON-INTEREST BEARING OPERATION AND MAINTENANCE DEFICITS

8. The Agency and the Contracting Officer concur that, as of the effective date of this Contract, the Agency has no non-interest bearing operation and maintenance deficits and shall have no further liability therefor.

#### SALES, TRANSFERS, OR EXCHANGES OF WATER

9. (a) The right to receive Project Water provided for in this Contract may be sold, transferred, or exchanged to others for reasonable and beneficial uses within the State of California if such sale, transfer, or exchange is authorized by applicable Federal and State laws, and applicable guidelines or regulations then in effect. No sale, transfer, or exchange of Project Water under this

Contract may take place without the prior written approval of the Contracting Officer, except as provided for in subdivision (b) of this Article, and no such sales, transfers, or exchanges shall be approved absent compliance with appropriate environmental documentation including but not limited to the National Environmental Policy Act and the Endangered Species Act. Such environmental documentation should include, as appropriate, an analysis of ground-water impacts and economic and social effects, including environmental justice, of the proposed water transfers on both the transferor and transferee.

(b) In order to facilitate efficient water management by means of water transfers of the type historically carried out among Project Contractors located within the same geographical area and to allow the Agency to participate in an accelerated water transfer program during the term of this Contract, the Contracting Officer shall prepare, as appropriate, necessary environmental documentation including, but not limited to, the National Environmental Policy Act and the Endangered Species Act analyzing annual transfers within such geographical areas and the Contracting Officer shall determine whether such transfers comply with applicable law. Following the completion of the environmental documentation, such transfers addressed in such documentation shall be conducted with advance notice to the Contracting Officer, but shall not require prior written approval by the Contracting Officer. Such environmental documentation and the Contracting Officer's compliance determination shall be reviewed every 5 years and updated, as necessary, prior to the expiration of the then-existing 5-year period. All subsequent environmental documentation shall include an alternative to evaluate not less than the quantity of Project Water historically transferred within the same geographical area.

(c) For a water transfer to qualify under subdivision (b) of this Article, such water transfer must: (i) be for irrigation purposes for lands irrigated within the previous 3 years, for M&I use, groundwater recharge, groundwater banking, similar groundwater activities, surface water storage, or fish and wildlife resources; not lead to land conversion; and be delivered to established

cropland, wildlife refuges, ground-water basins or municipal and industrial use; (ii) occur within a single Year; (iii) occur between a willing seller and a willing buyer; (iv) convey water through existing facilities with no new construction or modifications to facilities and be between existing Project Contractors and/or the Agency and the United States, Department of the Interior; and (v) comply with all applicable Federal, State, and local or tribal laws and requirements imposed for protection of the environment and Indian Trust Assets, as defined under Federal law.

(d) For the purpose of determining whether section 3405(a)(1)(M) of the CVPIA applies to the Agency as a transferor or transferee of Project Water, the Contracting Officer acknowledges that the Agency is within a county, watershed, or other area of origin, as those terms are utilized under California law, of water that constitutes the natural flow of the Sacramento River and its tributaries above the confluence of the American and Sacramento Rivers.

#### APPLICATION OF PAYMENTS AND ADJUSTMENTS

10. (a) The amount of any overpayment by the Agency of the Agency's O&M, Capital, and deficit (if any) obligations for the Year shall be applied first to any current liabilities of the Agency arising out of this Contract then due and payable. Overpayments of more than \$1,000 shall be refunded at the Agency's request. In lieu of a refund, any amount of such overpayment at the option of the Agency, may be credited against amounts to become due to the United States by the Agency. With respect to overpayment, such refund or adjustment shall constitute the sole remedy of the Agency or anyone having or claiming to have the right to the use of any of the Project Water supply provided for herein. All credits and refunds of overpayments shall be made within 30 days of the Contracting Officer obtaining direction as to how to credit or refund such overpayment in response to the notice to the Agency that it has finalized the accounts for the Year in which the overpayment was made.

(b) All advances for miscellaneous costs incurred for work requested by the Agency pursuant to Article 25 of this Contract shall be adjusted to reflect the actual costs when the

work has been completed. If the advances exceed the actual costs incurred, the difference will be refunded to the Agency. If the actual costs exceed the Agency's advances, the Agency will be billed for the additional costs pursuant to Article 25 of this Contract.

TEMPORARY REDUCTIONS--RETURN FLOWS

11. (a) Subject to: (i) the authorized purposes and priorities of the Project and the requirements of Federal law; and (ii) the obligations of the United States under existing contracts, or renewals thereof, providing for water deliveries from the Project, the Contracting Officer shall make all reasonable efforts to optimize Project Water deliveries to the Agency as provided in this Contract.

(b) The Contracting Officer ~~or Operating Non-Federal Entity~~ may temporarily discontinue or reduce the quantity of Water Delivered to the Agency as herein provided for the purposes of investigation, inspection, maintenance, repair, or replacement of any of the Project facilities or any part thereof necessary for the delivery of Project Water to the Agency, but so far as feasible the Contracting Officer ~~or Operating Non-Federal Entity~~ will give the Agency due notice in advance of such temporary discontinuance or reduction, except in case of emergency, in which case no notice need be given; Provided, that the United States shall use its best efforts to avoid any discontinuance or reduction in such service. Upon resumption of service after such reduction or discontinuance, and if requested by the Agency, the United States will, if possible, deliver the quantity of Project Water which would have been delivered hereunder in the absence of such discontinuance or reduction.

(c) The United States reserves the right to all seepage and return flow water derived from Water Delivered to the Agency hereunder which escapes or is discharged beyond the Agency's Service Area; Provided, that this shall not be construed as claiming for the United States

any right as seepage or return flow being put to reasonable and beneficial use pursuant to this Contract within the Agency's Service Area by the Agency or those claiming by, through, or under the Agency.

CONSTRAINTS ON THE AVAILABILITY OF WATER

12. (a) In its operation of the Project, the Contracting Officer will use all reasonable means to guard against a Condition of Shortage in the quantity of water to be made available to the Agency pursuant to this Contract. In the event the Contracting Officer determines that a Condition of Shortage appears probable, the Contracting Officer will notify the Agency of said determination as soon as practicable.

(b) If there is a Condition of Shortage because of errors in physical operations of the Project, drought, other physical causes beyond the control of the Contracting Officer or actions taken by the Contracting Officer to meet legal obligations then, except as provided in subdivision (a) of Article 18 of this Contract, no liability shall accrue against the United States or any of its officers, agents, or employees for any damage, direct or indirect, arising therefrom.

(c) In any Year in which there may occur a shortage for any of the reasons specified in subdivision (b) above, the Contracting Officer shall apportion the available Project Water supply among the Contractor and others entitled, under existing contracts and future contracts (to the extent such future contracts are permitted under subsections (a) and (b) of Section 3404 of the CVPIA) and renewals thereof, to receive Project Water consistent with the contractual obligations of the United States.

(d) Project Water furnished under this Contract will be allocated in accordance with the then-existing Project M&I Water Shortage Policy. Such policy shall be amended, modified, or superseded only through a public notice and comment procedure.

#### UNAVOIDABLE GROUNDWATER PERCOLATION

13. To the extent applicable, the Agency shall not be deemed to have delivered Irrigation Water to Excess Lands or Ineligible Lands within the meaning of this Contract if such lands are irrigated with groundwater that reaches the underground strata as an unavoidable result of the delivery of Irrigation Water by the Agency to Eligible Lands.

#### RULES AND REGULATIONS

14. The parties agree that the delivery of Irrigation Water or use of Federal facilities pursuant to this Contract is subject to Federal Reclamation law, including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C.390aa et seq.), as amended and supplemented, and the rules and regulations promulgated by the Secretary of the Interior under Federal Reclamation law.

#### WATER AND AIR POLLUTION CONTROL

15. The Agency, in carrying out this Contract, shall comply with all applicable water and air pollution laws and regulations of the United States and the State of California, and shall obtain all required permits or licenses from the appropriate Federal, State, or local authorities.

#### QUALITY OF WATER

16. (a) Project facilities used to deliver Project Water to the Agency pursuant to this Contract shall be operated and maintained to enable the United States to deliver Project Water to the Agency in accordance with the water quality standards specified in subsection 2(b) of the Act of August 26, 1937 (50 Stat. 865), as added by Section 101 of the Act of October 27, 1986 (100 Stat.

3050) or other existing Federal laws. The United States is under no obligation to construct or furnish water treatment facilities to maintain or to improve the quality of Water Delivered to the Agency pursuant to this Contract. The United States does not warrant the quality of Water Delivered to the Agency pursuant to this Contract.

(b) The Operation and Maintenance of Project facilities shall be performed in such manner as is practicable to maintain the quality of raw water made available through such facilities at the highest level reasonably attainable as determined by the Contracting Officer. The Agency shall be responsible for compliance with all State and Federal water quality standards applicable to surface and subsurface agricultural drainage discharges generated through the use of Federal or Agency facilities or Project Water provided by the Agency within the Agency's Service Area.

WATER ACQUIRED BY THE CONTRACTOR  
OTHER THAN FROM THE UNITED STATES

17. (a) Water or water rights now owned or hereafter acquired by the Agency other than from the United States and Irrigation Water furnished pursuant to the terms of this Contract may be simultaneously transported through the same distribution facilities of the Agency subject to the following: (i) if the facilities utilized for commingling Irrigation Water and non-Project water were constructed without funds made available pursuant to Federal Reclamation law, the provisions of Federal Reclamation law will be applicable only to the Landholders of lands which receive Irrigation Water; (ii) the eligibility of land to receive Irrigation Water must be established through the certification requirements as specified in the Acreage Limitation Rules and Regulations (43 CFR Part 426); (iii) the water requirements of Eligible Lands within the Agency's Service Area can be established and the quantity of Irrigation Water to be utilized is less than or equal to the quantity necessary to irrigate such Eligible Lands; and (iv) if the facilities utilized for commingling

Irrigation Water and non-Project water are/were constructed with funds made available pursuant to Federal Reclamation law, the non-Project water will be subject to the acreage limitation provisions of Federal Reclamation law, unless the Agency pays to the United States the incremental fee described in 43 CFR 426.15. In determining the incremental fee, the Contracting Officer will calculate annually the cost to the Federal Government, including interest ~~of~~ on storing or delivering non-Project water, which for purposes of this Contract shall be determined as follows: The quotient shall be the unpaid distribution system costs divided by the total irrigable acreage within the Agency's Service Area. The incremental fee per acre is the mathematical result of such quotient times the interest rate determined using Section 202 (3) of the Act of October 12, 1982 (96 Stat. 1263). Such incremental fee will be charged to each acre of excess or full cost land within the Agency's Service Area that receives non-Project water through Federally financed or constructed facilities. The incremental fee calculation methodology will continue during the term of this Contract absent the promulgation of a contrary Reclamation-wide rule, regulation, or policy adopted after the Agency has been afforded the opportunity to review and comment on the proposed rule, regulation, or policy. If such rule, regulation, or policy is adopted it shall supersede this provision.

(b) Water or water rights now owned or hereafter acquired by the Agency, other than from the United States, may be stored, conveyed, and/or diverted through Project facilities, subject to the completion of appropriate environmental documentation, with the approval of the Contracting Officer and the execution of any contract determined by the Contracting Officer to be necessary, consistent with the following provisions:

(1) The Agency may introduce non-Project water into Project facilities and deliver said water to lands within the Agency's Service Area, including Ineligible Lands, subject to payment to the United States ~~and/or to any applicable Operating Non-Federal Entity~~ of an appropriate rate as determined by the CVP Ratesetting Policy and the RRA of 1982, each as amended, modified, or superceded from time to time. In addition, if electrical power is required to

801 pump non-Project water through the facilities, the Agency shall be responsible for obtaining the  
802 necessary power and paying the necessary charges therefor.

803 (2) Delivery of such non-Project water in and through Project facilities  
804 shall only be allowed to the extent such deliveries do not: (i) interfere with other Project purposes  
805 as determined by the Contracting Officer; (ii) reduce the quantity or quality of water available to  
806 other Project water service contractors; (iii) interfere with the delivery of contractual water  
807 entitlements to any other Project water service contractors; or (iv) interfere with the physical  
808 maintenance of the Project facilities.

809 (3) ~~Neither The United States nor the Operating Non-Federal Entity~~ shall  
810 ~~not~~ be responsible for control, care, or distribution of the non-Project water before it is introduced  
811 into or after it is delivered from the Project facilities. The Agency hereby releases and agrees to  
812 defend and indemnify the United States ~~and the Operating Non-Federal Entity~~, and ~~their~~ its  
813 respective officers, agents, and employees, from any claim for damage to persons or property, direct  
814 or indirect, arising out of or relating to the Agency's or its officer's, employee's, agent's or assign's,  
815 act of (i) extracting or diverting non-Project water from any source, or (ii) diverting such non-  
816 Project water into Project facilities.

817 (4) Diversion of such non-Project water into Project facilities shall be  
818 consistent with all applicable laws, and if involving groundwater, consistent with any applicable  
819 ground-water management plan for the area from which it was extracted.

820 (5) After Project purposes are met, as determined by the Contracting  
821 Officer, the United States and the Agency shall share priority to utilize the remaining capacity of the  
822 facilities declared to be available by the Contracting Officer for conveyance and transportation of  
823 non-Project water prior to any such remaining capacity being made available to non-Project  
824 contractors.

825 OPINIONS AND DETERMINATIONS

18. (a) Where the terms of this Contract provide for actions to be based upon the opinion or determination of either party to this Contract, said terms shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of this Contract, expressly reserve the right to seek relief from and appropriate adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each opinion or determination by either party shall be provided in a timely manner. Nothing in subdivision (a) of Article 18 of this Contract is intended to or shall affect or alter the standard of judicial review applicable under Federal law to any opinion or determination implementing a specific provision of Federal law embodied in statute or regulation.

(b) The Contracting Officer shall have the right to make determinations necessary to administer this Contract that are consistent with the provisions of this Contract, the laws of the United States and of the State of California, and the rules and regulations promulgated by the Secretary of the Interior. Such determinations shall be made in consultation with the Agency to the extent reasonably practicable.

#### COORDINATION AND COOPERATION

19. (a) In order to further their mutual goals and objectives, the Contracting Officer and the Agency shall communicate, coordinate, and cooperate with each other, and with other affected Project Contractors, in order to improve the operation and management of the Project. The communication, coordination, and cooperation regarding operations and management shall include, but not be limited to, any action which will or may materially affect the quantity or quality of Project Water supply, the allocation of Project Water supply, and Project financial matters including, but not limited to, budget issues. The communication, coordination, and cooperation provided for hereunder shall extend to all provisions of this Contract. Each party shall retain exclusive decision making authority for all actions, opinion, and determinations to be made by the respective party.

(b) Within 120 days following the effective date of this Contract, the Agency, other affected Project Contractors, and the Contracting Officer shall arrange to meet with interested Project Contractors to develop a mutually agreeable, written Project-wide process, which may be amended as necessary separate and apart from this Contract. The goal of this process shall be to provide, to the extent practicable, the means of mutual communication and interaction regarding significant decisions concerning Project operation and management on a real-time basis.

(c) In light of the factors referred to in subdivision (b) of Article 3 of this Contract, it is the intent of the Secretary to improve water supply reliability. To carry out this intent:

(1) The Contracting Officer will, at the request of the Agency, assist in the development of integrated resource management plans for the Agency. Further, the Contracting Officer will, as appropriate, seek authorizations for implementation of partnerships to improve water supply, water quality, and reliability.

(2) The Secretary will, as appropriate, pursue program and project implementation and authorization in coordination with Project Contractors to improve the water supply, water quality, and reliability of the Project for all Project purposes.

(3) The Secretary will coordinate with Project Contractors and the State of California to seek improved water resource management.

(3.1) The Secretary and the Agency desire to work together to maximize the reasonable beneficial use of water for their mutual benefit. As a consequence, the Secretary and the Agency will work in partnership and with others in the region of the Redding Groundwater Basin, including other Contractors in the Shasta and Trinity Divisions of the CVP, to facilitate the better integration with the region of the Redding Groundwater Basin of all water supplies including, but not limited to, the better management and integration of surface water and groundwater, transfers and exchanges of water, the development and better utilization of surface water storage,

the effective utilization of waste, seepage and return flow water, and other operational and management options that may be identified in the future.

(4) The Secretary will coordinate actions of agencies within the Department of the Interior that may impact the availability of water for Project purposes.

(5) The Contracting Officer shall periodically, but not less than annually, hold division level meetings to discuss Project operations, division level water management activities, and other issues as appropriate.

(d) Without limiting the contractual obligations of the Contracting Officer under the other Articles of this Contract, nothing in this Article shall be construed to limit or constrain the Contracting Officer's ability to communicate, coordinate, and cooperate with the Agency or other interested stakeholders or to make decisions in a timely fashion as needed to protect health, safety, physical integrity of structures or facilities.

#### CHARGES FOR DELINQUENT PAYMENTS

20. (a) The Contractor shall be subject to interest, administrative and penalty charges on delinquent installments or payments. When a payment is not received by the due date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond the due date. When a payment becomes sixty (60) days delinquent, the Contractor shall pay an administrative charge to cover additional costs of billing and processing the delinquent payment. When a payment is delinquent ninety (90) days or more, the Contractor shall pay an additional penalty charge of six (6%) percent per year for each day the payment is delinquent beyond the due date. Further, the Contractor shall pay any fees incurred for debt collection services associated with a delinquent payment.

(b) The interest charge rate shall be the greater of the rate prescribed quarterly in the Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate of one-half of one (0.5%) percent per month prescribed by Section 6 of the Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be determined as of the due date and remain fixed for the duration of the delinquent period.

(c) When a partial payment on a delinquent account is received, the amount received shall be applied, first to the penalty, second to the administrative charges, third to the accrued interest, and finally to the overdue payment.

EQUAL OPPORTUNITY

21. During the performance of this Contract, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of payment or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without discrimination because of race, color, religion, sex, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Contracting Officer, advising the said labor union or workers' representative of the Contractor's commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(e) The Contractor will furnish all information and reports required by said amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the Contracting Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(f) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this Contract or with any of the said rules, regulations, or orders, this Contract may be canceled, terminated, or suspended, in whole or in part, and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in said amended Executive Order, and such other sanctions may be imposed and remedies invoked as provided in said Executive Order, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(g) The Contractor will include the provisions of paragraphs (a) through (g) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of said amended Executive Order, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

#### GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

22. (a) The obligation of the Agency to pay the United States as provided in this Contract is a general obligation of the Agency notwithstanding the manner in which the obligation may be distributed among the Contractor's water users and notwithstanding the default of individual water users in their obligations to the Contractor.

(b) The payment of charges becoming due hereunder is a condition precedent to receiving benefits under this Contract. The United States shall not make water available to the Contractor through Project facilities during any period in which the Contractor may be in arrears in the advance payment of water rates due the United States. The Contractor shall not furnish water made available pursuant to this Contract for lands or parties which are in arrears in the advance payment of water rates levied or established by the Contractor.

(c) With respect to subdivision (b) of this Article, the Contractor shall have no obligation to require advance payment for water rates which it levies.

#### COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

23. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112, as amended), the Age Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other applicable civil rights laws, as well as with their respective implementing regulations and guidelines imposed by the U.S. Department of the Interior and/or Bureau of Reclamation.

(b) These statutes require that no person in the United States shall, on the grounds of race, color, national origin, handicap, or age, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving financial assistance from the Bureau of Reclamation. By executing this Contract, the Contractor agrees to immediately take any measures necessary to implement this obligation, including permitting officials of the United States to inspect premises, programs, and documents.

(c) The Contractor makes this agreement in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other Federal

financial assistance extended after the date hereof to the Contractor by the Bureau of Reclamation, including installment payments after such date on account of arrangements for Federal financial assistance which were approved before such date. The Contractor recognizes and agrees that such Federal assistance will be extended in reliance on the representations and agreements made in this Article, and that the United States reserves the right to seek judicial enforcement thereof.

#### PRIVACY ACT COMPLIANCE

24. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et seq.) in maintaining Landholder acreage certification and reporting records, required to be submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

(b) With respect to the application and administration of the criminal penalty provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees responsible for maintaining the certification and reporting records referenced in (a) above are considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

(c) The Contracting Officer or a designated representative shall provide the Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of information contained in the Landholder's certification and reporting records.

(d) The Contracting Officer shall designate a full-time employee of the Bureau of Reclamation to be the System Manager who shall be responsible for making decisions on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The Contractor is authorized to grant requests by individuals for access to their own records.

(e) The Contractor shall forward promptly to the System Manager each proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System Manager with information and records necessary to prepare an appropriate response to the requester. These requirements do not apply to individuals seeking access to their own certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the requester elects to cite the Privacy Act as a basis for the request.

#### AGENCY TO PAY CERTAIN MISCELLANEOUS COSTS

25. In addition to all other payments to be made by the Agency pursuant to this Contract, the Agency shall pay to the United States, within 60 days after receipt of a bill and detailed statement submitted by the Contracting Officer to the Agency for such specific items of direct cost

incurred by the United States for work requested by the Agency associated with this Contract plus indirect costs in accordance with applicable Bureau of Reclamation policies and procedures. All such amounts referred to in this Article shall not exceed the amount agreed to in writing in advance by the Agency. This Article shall not apply to costs for routine contract administration.

WATER CONSERVATION

26. (a) Prior to the delivery of water provided from or conveyed through Federally constructed or Federally financed facilities pursuant to this Contract, the Agency shall be implementing an effective water conservation and efficiency program based on the Agency's water conservation plan that has been determined by the Contracting Officer to meet the conservation and efficiency criteria for evaluating water conservation plans established under Federal law. The water conservation and efficiency program shall contain definite water conservation objectives, appropriate economically feasible water conservation measures, and time schedules for meeting those objectives. Continued Project Water delivery pursuant to this Contract shall be contingent upon the Agency's continued implementation of such water conservation program. In the event the Agency's water conservation plan or any revised water conservation plan completed pursuant to subdivision (d) of Article 26 of this Contract have not yet been determined by the Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer determines are beyond the control of the Agency, water deliveries shall be made under this Contract so long as the Agency diligently works with the Contracting Officer to obtain such determination at the earliest practicable date, and thereafter the Agency immediately begins implementing its water conservation and efficiency program in accordance with the time schedules therein.

(b) Should the amount of M&I Water delivered pursuant to subdivision (a) of Article 3 of this Contract equal or exceed 2,000 acre-feet per Year, the Agency shall implement the Best Management Practices identified by the time frames issued by the California Urban Water

Conservation Council for such M&I Water unless any such practice is determined by the Contracting Officer to be inappropriate for the Agency.

(c) The Agency shall submit to the Contracting Officer a report on the status of its implementation of the water conservation plan on the reporting dates specified in the then existing conservation and efficiency criteria established under Federal law.

(d) At 5-year intervals, the Agency shall revise its water conservation plan to reflect the then current conservation and efficiency criteria for evaluating water conservation plans established under Federal law and submit such revised water management plan to the Contracting Officer for review and evaluation. The Contracting Officer will then determine if the water conservation plan meets Reclamation's then current conservation and efficiency criteria for evaluating water conservation plans established under Federal law.

(e) If the Agency is engaged in direct ground-water recharge, such activity shall be described in the Agency's water conservation plan.

#### EXISTING OR ACQUIRED WATER OR WATER RIGHTS

27. Except as specifically provided in Article 17 of this Contract, the provisions of this Contract shall not be applicable to or affect non-Project water or water rights now owned or hereafter acquired by the Agency or any user of such water within the Agency's Service Area. Any such water shall not be considered Project Water under this Contract. In addition, this Contract shall not be construed as limiting or curtailing any rights which the Agency or any water user within the Agency's Service Area acquires or has available under any other contract pursuant to Federal Reclamation law.

#### OPERATION AND MAINTENANCE BY NON-FEDERAL ENTITY

28. ~~Omitted. (a) The Operation and Maintenance of a portion of the Project facilities which serve the Agency, and responsibility for funding a portion of the costs of such Operation and Maintenance, have been transferred to the Operating Non-Federal Entity by separate agreement~~

between the United States and the Operating Non-Federal Entity. That separate agreement shall not interfere with or affect the rights or obligations of the Agency or the United States hereunder.

————— (b) ——— The Contracting Officer has previously notified the Agency in writing that the Operation and Maintenance of a portion of the Project facilities which serve the Agency has been transferred to the Operating Non-Federal Entity, and therefore, the Agency shall pay directly to the Operating Non-Federal Entity, or to any successor approved by the Contracting Officer under the terms and conditions of the separate agreement between the United States and the Operating Non-Federal Entity described in subdivision (a) of this Article, all rates, charges, or assessments of any kind, including any assessment for reserve funds, which the Operating Non-Federal Entity or such successor determines, sets, or establishes for the Operation and Maintenance of the portion of the Project facilities operated and maintained by the Operating Non-Federal Entity or such successor. Such direct payments to the Operating Non-Federal Entity or such successor shall not relieve the Agency of its obligation to pay directly to the United States the Agency's share of the Project Rates, Charges, and Tiered Pricing Components except to the extent the Operating Non-Federal Entity collects payments on behalf of the United States in accordance with the separate agreement identified in subdivision (a) of this Article.

————— (c) ——— For so long as the Operation and Maintenance of any portion of the Project facilities serving the Agency is performed by the Operating Non-Federal Entity, or any successor thereto, the Contracting Officer shall adjust those components of the Rates for Water Delivered under this Contract representing the cost associated with the activity being performed by the Operating Non-Federal Entity or its successor.

————— (d) ——— In the event the Operation and Maintenance of the Project facilities operated and maintained by the Operating Non-Federal Entity is re-assumed by the United States during the term of this Contract, the Contracting Officer shall so notify the Agency, in writing, and present to the Agency a revised Exhibit "B" which shall include the portion of the Rates to

~~be paid by the Agency for Project Water under this Contract representing the Operation and Maintenance costs of the portion of such Project facilities which have been re-assumed. The Agency shall, thereafter, in the absence of written notification from the Contracting Officer to the contrary, pay the Rates, Charges, and Tiered Pricing Component(s) specified in the revised Exhibit "B" directly to the United States in compliance with Article 7 of this Contract.~~

CONTINGENT ON APPROPRIATION OR ALLOTMENT OF FUNDS

29. The expenditure or advance of any money or the performance of any obligation of the United States under this Contract shall be contingent upon appropriation or allotment of funds. Absence of appropriation or allotment of funds shall not relieve the Agency from any obligations under this Contract. No liability shall accrue to the United States in case funds are not appropriated or allotted.

BOOKS, RECORDS, AND REPORTS

30. (a) The Contractor shall establish and maintain accounts and other books and records pertaining to administration of the terms and conditions of this Contract, including: the Contractor's financial transactions, water supply data, and Project land and right-of-way agreements; the water users' land-use (crop census), land ownership, land-leasing and water use data; and other matters that the Contracting Officer may require. Reports thereon shall be furnished to the Contracting Officer in such form and on such date or dates as the Contracting Officer may require. Subject to applicable Federal laws and regulations, each party to this Contract shall have the right during office hours to examine and make copies of the other party's books and records relating to matters covered by this Contract.

(b) Notwithstanding the provisions of subdivision (a) of this Article, no books, records, or other information shall be requested from the Agency by the Contracting Officer unless such books, records, or information are reasonably related to the administration or performance of this Contract. Any such request shall allow the Agency a reasonable period of time within which to provide the requested books, records, or information.

(c) ~~Omitted. At such time as the Agency provides information to the Contracting Officer pursuant to subdivision (a) of this Article, a copy of such information shall be provided to the Operating Non-Federal Entity.~~

ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

31. (a) The provisions of this Contract shall apply to and bind the successors and assigns of the parties hereto, but no assignment or transfer of this Contract or any right or interest therein shall be valid until approved in writing by the Contracting Officer.

(b) The assignment of any right or interest in this Contract by either party shall not interfere with the rights or obligations of the other party to this Contract absent the written concurrence of said other party.

(c) The Contracting Officer shall not unreasonably condition or withhold his approval of any proposed assignment.

SEVERABILITY

32. In the event that a person or entity who is neither (i) a party to a Project contract, nor (ii) a person or entity that receives Project Water from a party to a Project contract, nor (iii) an association or other form of organization whose primary function is to represent parties to Project contracts, brings an action in a court of competent jurisdiction challenging the legality or enforceability of a provision included in this Contract and said person, entity, association, or organization obtains a final court decision holding that such provision is legally invalid or unenforceable and the Agency has not intervened in that lawsuit in support of the plaintiff(s), the parties to this Contract shall use their best efforts to (i) within 30 days of the date of such final court decision identify by mutual agreement the provisions in this Contract which must be revised, and (ii) within 3 months thereafter promptly agree on the appropriate revision(s). The time periods specified above may be extended by mutual agreement of the parties. Pending the completion of the actions designated above, to the extent it can do so without violating any applicable provisions of law, the United States shall continue to make the quantities of Project Water specified in this Contract available to the Agency pursuant to the provisions of this Contract which were not found to be legally invalid or unenforceable in the final court decision.

RESOLUTION OF DISPUTES

33. Should any dispute arise concerning any provisions of this Contract, or the parties' rights and obligations thereunder, the parties shall meet and confer in an attempt to resolve the dispute. Prior to the Agency commencing any legal action, or the Contracting Officer referring any matter to Department of Justice, the party shall provide to the other party 30 days' written notice of the intent to take such action; Provided, that such notice shall not be required where a delay in commencing an action would prejudice the interests of the party that intends to file suit. During the 30-day notice period, the Agency and the Contracting Officer shall meet and confer in an attempt to resolve the dispute. Except as specifically provided, nothing herein is intended to waive or abridge any right or remedy that the Agency or the United States may have.

OFFICIALS NOT TO BENEFIT

34. No Member of or Delegate to Congress, Resident Commissioner, or official of the Contractor shall benefit from this Contract other than as a water user or landowner in the same manner as other water users or landowners.

CHANGES IN CONTRACTOR'S SERVICE AREA

35. (a) While this Contract is in effect, no change may be made in the Contractor's Service Area or boundaries, by inclusion or exclusion of lands, dissolution, consolidation, merger, or otherwise, except upon the Contracting Officer's written consent.

(b) Within 30 days of receipt of a request for such a change, the Contracting Officer will notify the Agency of any additional information required by the Contracting Officer for processing said request, and both parties will meet to establish a mutually agreeable schedule for timely completion of the process. Such process will analyze whether the proposed change is likely to: (i) result in the use of Project Water contrary to the terms of this Contract; (ii) impair the ability of the Agency to pay for Project Water furnished under this Contract or to pay for any Federally-constructed facilities for which the Agency is responsible; and (iii) have an impact on any Project Water rights applications, permits, or licenses. In addition, the Contracting Officer

shall comply with the National Environmental Policy Act and the Endangered Species Act. The Agency will be responsible for all costs incurred by the Contracting Officer in this process, and such costs will be paid in accordance with Article 25 of this Contract.

#### FEDERAL LAWS

36. By entering into this Contract, the Agency does not waive its rights to contest the validity or application in connection with the performance of the terms and conditions of this Contract of any Federal law or regulation; Provided, that the Agency agrees to comply with the terms and conditions of this Contract unless and until relief from application of such Federal law or regulation to the implementing provision of the Contract is granted by a court of competent jurisdiction.

#### NOTICES

37. Any notice, demand, or request authorized or required by this Contract shall be deemed to have been given, on behalf of the Agency, when mailed, postage prepaid, or delivered to the Area Manager, Bureau of Reclamation, Northern California Area Office, 16349 Shasta Dam Boulevard, Shasta Lake, California 96019, and on behalf of the United States, when mailed, postage prepaid, or delivered to the Board of Directors of the Shasta County Water Agency, 1855 Placer Street, Redding, California 96001. The designation of the addressee or the address may be changed by notice given in the same manner as provided in this Article for other notices.

#### CONFIRMATION OF CONTRACT

38. The Agency, after the execution of this Contract, shall promptly seek to secure a decree of a court of competent jurisdiction of the State of California, confirming the execution of this Contract. The Agency shall furnish the United States a certified copy of the final decree, the validation proceedings, and all pertinent supporting records of the court approving and

1191 confirming this Contract, and decreeing and adjudging it to be lawful, valid, and binding on the  
1192 Agency.

1193 RESALE OF WATER

1194 39. The Agency may enter into contracts with Subcontractors for the resale and  
1195 distribution of water furnished pursuant to this Contract within the Agency's Service Area. Each  
1196 such Subcontractor shall be subject to the obligations and limitations imposed, and to the rights  
1197 granted, by this Contract and shall so provide. The terms and conditions of each subcontract  
1198 shall be approved by the Contracting Officer prior to the execution of such subcontract, which  
1199 approval shall be limited to a determination that the subcontract is consistent with the provisions  
1200 of this Contract. Nothing herein or therein contained shall be deemed in any way to release the  
1201 Contractor from its primary liability to the United States hereunder with respect to each and all  
1202 of the obligations undertaken by the Contractor in this Contract.

1203                    IN WITNESS WHEREOF, the parties hereto have executed this Contract as of  
1204   the day and year first above written.
